

Manny Bray--Mahinc

braymahinc@gmail.com | man-epit.github.io | linkedin.com/in/manny-bray-mahinc

Third-year student in Epitech's Master's-level Grande École Program, seeking a 4-month technical internship starting April 2027 in embedded systems, data/AI or automation.

EDUCATION

- Epitech** — *Grande École Program (Master's level), IT Expert track* 2024 – Present
- Université de La Réunion** — *Double Bachelor's in Mathematics and Computer Science* 09/2023 – 05/2024
- Completed first year, covering core theoretical foundations in mathematics and computer science.
- French Baccalaureate (Général)** — independent candidate 2023

CERTIFICATIONS

- Amateur Radio Certificate (ANFR)** — in progress 07/2026 – Present
- Self-studying for the French amateur radio licence, building cross-disciplinary knowledge of hardware engineering and signal transmission.

EXPERIENCE

- Epitech** — *Teaching Assistant* 02/2026 – Present
- Mentor 100+ students on their programming projects, providing technical guidance and support.
- EDF** — *Data Analyst & Automation Tool Developer* 07/2025 – 12/2025
- Cut team-assignment processing time during cyclone crises from 2–4 hours to 15–30 minutes by building an internal dispatch tool with Svelte and Supabase.
 - Identified new areas for improving data collection by analyzing operational and financial data.

PROJECTS

- RobotCar** (in progress) — *C, Python, Bash*
- Building an autonomous embedded vehicle on an NVIDIA Jetson Nano with an OAK-D Lite camera.
 - Rewrote the VESC motor-controller protocol in C, communicating over a UART serial link.
 - Developed a supervised-learning image-processing model and decision-making algorithms in C to drive the vehicle.
- Zappy** — *C++, Python*
- Designed a networked distributed simulation built on a TCP client-server architecture.
 - Developed an asynchronous, non-blocking C++ server (I/O multiplexing) running the environment logic, plus a C++ graphical visualizer and autonomous AI clients in Python focused on decision-making.

TECHNICAL SKILLS

Languages: C, C++, Rust, Python, Haskell, JavaScript

Data & AI: Pandas, Scikit-learn, TensorFlow, PyTorch

DevOps & Tools: Git, Docker, CI/CD (GitHub Actions, Jenkins), Linux/Unix

Concepts: Object-oriented programming, network programming (sockets), machine learning, concurrent programming (multithreading), software architecture

LEADERSHIP & ACTIVITIES

- Corporate Ambassador Lead** — Epitech La Réunion 2026 – Present
- Represent students and manage relationships with Epitech's partner companies.
- President, Student Union (BDE)** — Epitech La Réunion 2025 – Present
- Lead a team of 20+ members, manage the union's budget and organize campus events.

LANGUAGES

French (native) | English (900/990, Epitech English test)
